

CODSOFT

TASKS: [Chosen]

- 1] Number Game [User Guesses the number that Computer randomly chooses from 1 to 100]
 - 2] Student Grade Calculator
 - 3] Currency Converter.
-

TASK 1:

- 1] Range \rightarrow 1 to 100
- 2] Computer Generates a number
- 3] If the user is close to the number it shows ~~to~~ that prompt if you are close
 $\rightarrow \pm 7$ should be alright
- 4] If the user is too far from the number then it should say Too high or Too low. ± 15
- 5] If it is somewhere from ± 7 to ± 15 then also it should give a prompt.

7) To make this more challenging user
can fix their no. of attempts to
guess the number.

8) Instead of getting up user to take
the no. of attempts we can set the
difficulty bar trying to set the no. of attempts

9) -
